

Angela Wangari Walter, Ph.D., M.P.H., M.S.W.

(she/her/hers) Associate Professor, Public Health, University of Massachusetts Lowell

Angela Wangari Walter, Ph.D., M.P.H., M.S.W., is an associate professor of Public Health at the University of Massachusetts Lowell. She is also Core-Faculty of the Health Promotion and Resiliency Intervention Research (HPRIR) Program at Massachusetts General Hospital.

Her research focuses on developing, implementing, and evaluating behavioral interventions to improve health outcomes for individuals with alcohol, tobacco, and other drug use (ATOD) disorders and co-occurring conditions (e.g., mental illness, cancer). Her community engaged research (CEnR) has contributed to understanding the relationships between social determinants of health and wellbeing; and the impact of culturally relevant and integrated care for adults with co-occurring substance use and mental health disorders. She is actively engaged in community efforts addressing racial and social injustices, serving as an advocate, educator, volunteer, and nonprofit board and advisory member. [Read more.](#)
