

teen MENTAL HEALTH FIRST AID *Training Pricing*

teen Mental Health First Aid (tMHFA) aims to provide the highest impact training for its participating Instructors, teens and organizations. As you create your tMHFA training plan, there are a few factors to keep in mind:

1. Plan to certify at least one Instructor for every 125 teens.
2. Determine the amount of time it would take to train your students.
3. The size, scope and desired timeline of your training plan will help to determine the number of Instructors needed. For example, a school district may choose to host a private Instructor training while a small youth-serving community program may choose to train one Instructor.
